Education

RV Institute of Technology and Management, Bengaluru
Bachelor of Engineering in Computer Science

2026
8.47 CGPA (4th Sem)

Vedantha PU Colleage, Bengaluru
12th Standard in Karnataka State Board

2022
87.66%

Excellent High School, Vijayapura
10th Standard in Karnataka State Board

2020
95%

Skills

- **Programming Languages:** C, Python, Java
- **Deep Learning & Machine Learning:** PyTorch, CNNs, RNNs (including GRUs and LSTMs)
- **Soft skills:** Critical Thinking, Problem-solving, Time Management, Communication Skills, Team Collaboration
- **Data Analysis & Visualization:** Power BI, NumPy, Matplotlib, Pandas, Seaborn, Flask
- **Tools used:** VSCode, IntelliJ, Conda, CUDA, Pycharm, Github, Jupyter Notebooks, Google Cloud
- **Course Work:** Operating System, Database Management System, Data Structures and Applications, Design and Analysis of Algorithm, Object Oriented Programming using Java, Data Visualization using Python, UI/UX, Cyber Security, DDCO

Projects

Image Captioning with CNN and RNN

- Built an image captioning model using **PyTorch**, combining **CNN** (ResNet) for feature extraction and **RNN** (LSTM) for sequence generation.
- Trained on the **COCO dataset** and evaluated using BLEU scores.
- Tools: PyTorch, Python, COCO dataset, VSCODE

Power BI Projects

- **Sales Dashboard:** Analyzed sales trends and performance metrics across regions using Power BI.
- **GDP Analysis:** Visualized GDP growth and economic indicators to track national performance.
- **Amazon Prime Data:** Created reports to analyze user engagement, subscription growth, and content popularity.
- **HR Analytics:** Developed a dashboard to track employee performance, attrition, and recruitment metrics.

Certifications & Courses

- **CISCO Network Basics** – Gained foundational knowledge in networking principles and protocols.
- **Software Engineering** (Infosys Springboard) – Developed an understanding of software development life cycle, methodologies, and best practices.
- **Python Programming** (Great Learning) – Completed a comprehensive course on Python programming, focusing on syntax, data structures, and algorithms.
- **OOPS in Java** (Great Learning) – Mastered Object-Oriented Programming concepts using Java, including classes, objects, inheritance, and polymorphism.

Personal Information

Language Proficiency : English, Hindi, Kannada
Areas of Interest : Music, Movies
